Quality- and environmental policy

PURPOSE

Our aim is to be, as well as be, perceived as responsible and progressive in our environmental and quality management. The company's ambition is to be among the best in the field of environmental and quality management.

We shall work focused on ensuring continuous improvement and strive for a long-term sustainable, environmentally friendly and financial development of our business operations.

FUNDAMENTAL

Our environmental and quality position is based on the generally accepted knowledge concerning the environment and industry-specific quality requirements. Knowledge, we acquire from government agencies, researchers, environmental movements, industry and our own organization.

Menigo Foodservice AB complies with current environmental legislation.

OPERATIONS

We strive to proactively meet the expectations of our customers and the community at large when it comes to our transportation and storage facilities having good hygienic conditions, a high product safety record and a reduced environmental impact.

ASSORTMENT

Customers and society expect our goods to be safe as well as environmentally and ethically acceptable. Our task is to ensure this, as far as possible, by placing demands on our suppliers' work in terms of quality, ethics and the environment.

INFORMATION AND COMMUNICATION

Customers and society expect transparency and honesty. Our aim is to provide fact based, reliable and relevant information and communication, empowering customers to make their own, enlightened choices. We must ensure good customer relationships where customers are treated with respect, courtesy, and professionalism. Their views will be considered in our business development.

KNOWLEDGE AND EFFICIENCY

Our employees shall possess enough knowledge to enable the company to adhere to this policy.

Amelie de Geer
CEO, Menigo Foodservice AB

a Sysco company
